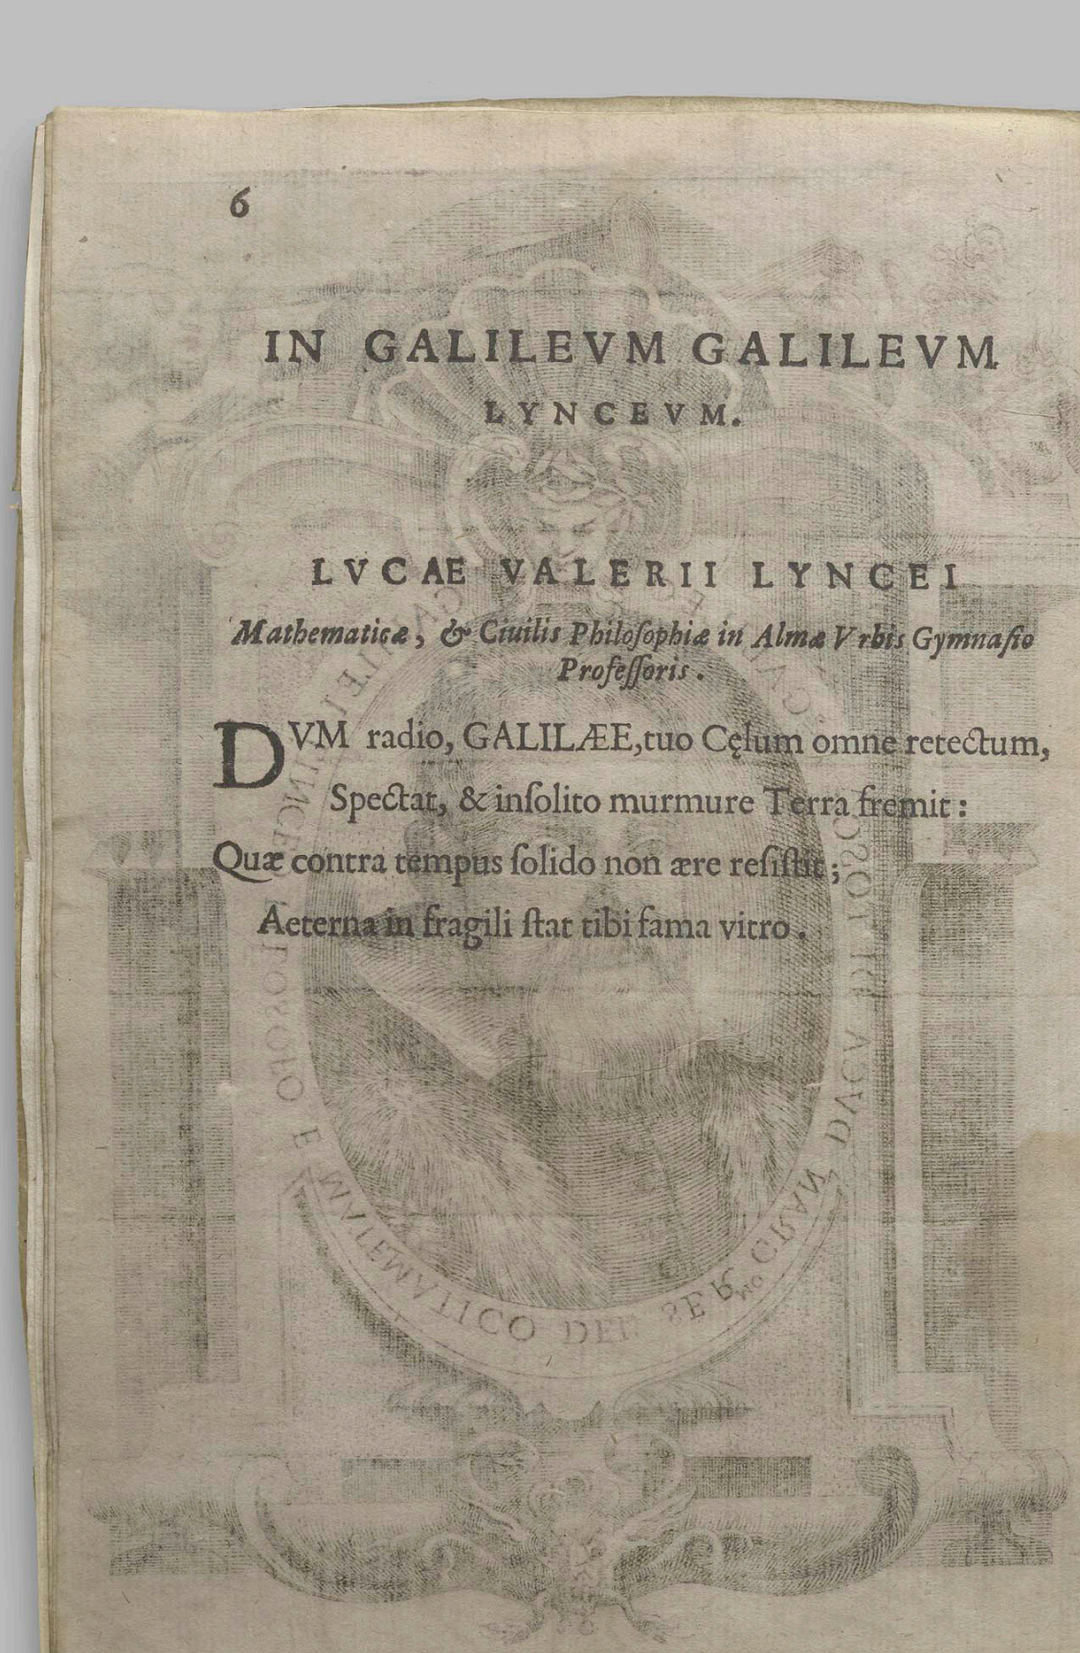
IN GALILEVM GALILEVM LYNCEVM.



LVCAE VALERII LYNCEI

Mathematicæ, & Ciuilis Philosophiæ in Almæ Vrbis Gymnasio Professoris.

DVM radio, GALILÆE, tuo Cœlum omne retectum,
Spectat, & insolito murmure Terra fremit:
Quæ contra tempus solido non ære resistit;
Aeterna in fragili stat tibi fama vitro.

IOANNIS FABRI LYNCEI BAMBERGENSIS

Simpliciarij Pontificij, ac Botanicam in Vrbe publicè profitentis.

NON tibi Dædaleis opus est, GALILÆE, volanti
Ad Solem pennis, Sole tepente cadunt.
Nec Ganymedæa veheris super astra Volucri,
Imbelles pueros hæc modo portat Auis.
Asti tibi ceu LYNCI, penetrent quæ mœnia Cœli,
Lumina præclarum contulit ingenium.
Queis noua demonstras tu sydera PRIMVS Olympo
Atque subesse nouas Sole doces MACVLAS.
